

Big Hauls of Fish Attract Anglers to Beautiful Cape May

Special Dispatch to The Tribune
CAPE MAY, N. J., July 22.—Fishing, tennis and golf continue among the main attractions here. Deep sea excursions where the fish are plentiful has been a popular pastime during the week.

Nearly all of the hotels have private tennis courts for the use of their guests. Philadelphia and Baltimore are unusually well represented by members of the younger set who are summering here and much of their time is spent playing tennis and arranging small tournaments.

An excellent golf course and a yacht club are also available for those to whom these sports appeal.

At Congress Hall dances are held, and in the early evening the floors are reserved only for children, who are chaperoned by the leading Philadelphia and New York society women. On August 1 the annual event of the A. A. Union of the Golf Tournament will be held.

Players representing the entire country will be there. The annual beefsteak dinner was held at the club and guests from New York, Philadelphia, Boston, Providence and other clubs of the country (approximately 200 guests) attended. Commander F. C. Spence presided. The United States Navy has a station here, with the largest hangar in the world, which has been constructed since the armistice was signed. This was built for the purpose of housing the world's largest dirigible, which the United States had purchased from England, but which was destroyed by an explosion.
